Keep on studying... you can do this!

“The more that you read, the more things you will know. The more that you learn the more places you'll go...”. Dr Seuss.

At TasTAFE, our priority is our students.

We know that you want to continue working towards your career goals, so don't be a stranger to your training! The more skills you gain now, the better for your future.

Over the next few months, we encourage all TasTAFE students to embrace the online environment and learn as much as you can, so that you'll have the skills you need when the coronavirus period is over.

Make the most of online learning!

We're living in an extraordinary time and the ability to be flexible, adaptable and learn online will become an essential skill in the future.

Don't let your TasTAFE training go because online learning is different to what you signed up for.

The skills you learn during this period will be essential for your future employment opportunities – and the job market will probably look a bit different too.

Grasp this opportunity now – because as well as gaining new skills and knowledge, getting stuck into your TasTAFE course online will also help you avoid being bored while you're stuck at home!

And remember, distance yourself from others... not your studies!
